

Module #3 Report | CSE 310 C++

|| Rust ||
|SQL Relational Databases | |Choose Your Own Adventure | |

Fill Out the Checklist

Complete the following checklist to make sure you completed all parts of the module. Mark your response with **Yes** or **No**.

If the answer is **No** then additionally describe what was preventing you from completing this step.

|Question

|Your Response|Comments|

|-----
-----|---|

|Did you implement the entire set of unique requirements as described in the Module Description document in I-Learn? | Yes| |

|Did you write at least 100 lines of code in your software and include useful comments? | Yes| |

|Did you use the correct [README.md](#) template from the Module Description document in I-Learn? |Yes | |

|Did you completely populate the [README.md](#) template? |Yes | |

|Did you create the video, publish it on YouTube, and reference it in the [README.md](#) file? | No|No video was made |

|Did you publish the code with the [README.md](#) (in the top-level folder) into a public GitHub repository? |Yes | |

Did you complete a Stretch Challenge

If you completed a stretch challenge, describe what you completed.

I made the program write the game results to a game_results.txt file to demonstrate reading/writing to a file

Record your time

How many hours did you spend on this module and the team project this Sprint?

Include all time including planning, researching, implementation, troubleshooting, documentation, video production, and publishing.

	Hours
Individual Module	10
Team Project	6

Retrospective

- What learning strategies worked well in this module?

Breaking down the project into smaller steps and files helped a lot for me this project

- What strategies (or lack of strategy) did not work well?

I did not give time to make a video and instead focused mainly on getting the project done

- How can you improve in the next module?

Review whats best for struct vs class in C#
